American Community Survey: A New Approach for Timely Information

The American Community Survey (ACS) is a new nationwide survey designed to provide communities a fresh look at how they are changing. It is intended to eliminate the need for the long form in the 2010 Census. The ACS collects information from U.S. households similar to what was collected on the Census 2000 long form, such as income, commute time to work, home value, veteran status, and other important data. As with the official U.S. census, information about individuals will remain confidential.

Three Million Households to be Surveyed

The ACS will collect and produce population and housing information every year instead of every 10 years. About 3 million households will be surveyed each year. Collecting data every year will reduce the cost of the official decennial census and will provide more up-to-date information throughout the decade

about trends at the national and the local levels. A similar program is planned for Puerto Rico.

Expanding Local Coverage

The ACS began in 1996 and has expanded each subsequent year. Data from the 2004 ACS are available for over 800 geographies, including 244 counties, 203 congressional districts, most metropolitan areas of 250,000 population or more, all 50 states, and the District of Columbia. The Census Bureau plans to conduct the ACS in every county of the United States, contacting the residents of 3 million housing units. Within three years, data should be available for all areas of 20,000 or more. For small areas less than 20,000, it will take five years to accumulate a large enough sample to provide estimates with accuracy similar to the decennial census.

Tennessee Information

Some new (2004) Tennessee information gleaned

from the ACS includes the following. There were 2.3 million households in Tennessee. The average household size was 2.5 people. Four percent of the people living in Tennessee were foreign-born. Of the remaining 96 percent, 64 percent were born in Tennessee. Five percent of all Tennesseans spoke a language other than English in their home. Of that 5 percent, 56 percent spoke Spanish. Of adults 25 years and older, 81 percent had graduated from high school. Among people 16 to 19 years old, 11 percent were high school dropouts.

Of the employed population (over 16 years old), 19 percent were employed in educational/health and social services, 18 percent in manufacturing, and 12 percent in retail trade. The most common occupations were management, professional and related (31 percent); sales and office (26 percent); production, transportation, and material moving (18 percent); and service occupations (15 percent).

American Community Survey

Tennessee Data Profile Highlights – 2004

	Estimate	Percent	United States
General Characteristics			
Total Population	5,748,379		
Male	2,792,769	48.6 %	48.9 %
Female	2,955,610	51.4 %	51.1 %

NONFARM EMPLOYMENT AND LABOR FORCE IN TENNESSEE

Tennessee's seasonally adjusted estimated unemployment rate for November 2005 was 5.8 percent, up 0.2 percent from the October 2005 rate. After one month of being equal to the national rate, this is the second consecutive month that the rate is above the national average.

The United States' unemployment rate was 5.0 percent in November 2005. In November 2004, the national unemployment rate was 5.4 percent, and the state's unemployment rate was 5.3 percent.

Across Tennessee, the not seasonally adjusted unemployment rate increased in 76 counties, decreased in 13 counties, and remained the same in six counties. The lowest rate occurred in Williamson County at 3.8 percent, up 0.3 percent from the previous month. The highest rate was Clay County's 14.0 percent, up from 13.3 percent in October. (Continued from Page 5)

Total nonfarm employment increased by 17,600 jobs from November 2004 to November 2005. During this period, there were increases in health care/social assistance (up 6,600 jobs), which includes increases of 3,400 jobs in ambulatory health care services, 1,600 jobs in hospitals, and 1,300 jobs in social assistance; retail trade (up 4,000 jobs), which includes an increase of 1,800 jobs in general merchandise stores; local government (up 2,600 jobs); construction (up 2,200 jobs); wholesale trade

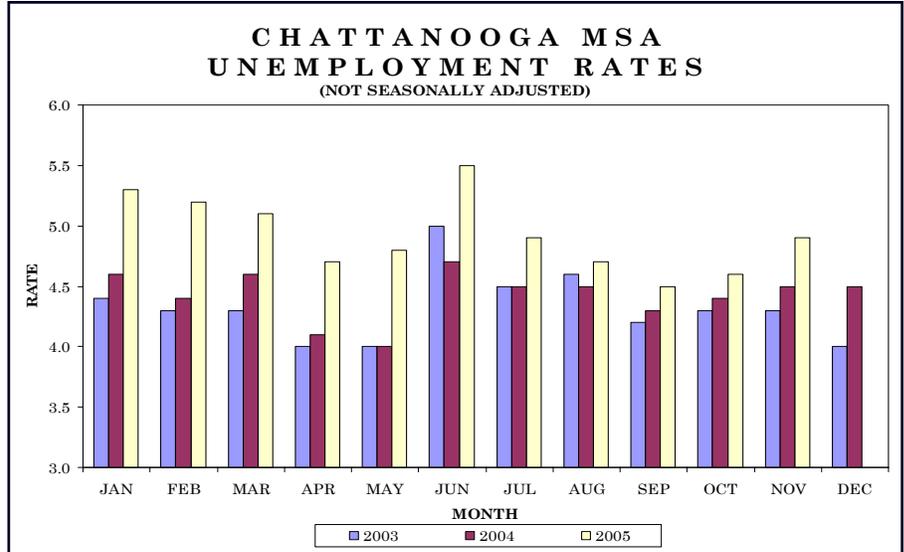

(up 2,000 jobs), which includes increases of 1,100 jobs in wholesale electronic markets and 1,000 jobs in durable goods merchant wholesalers; accommodation/food services (up 2,000 jobs), which includes an increase of 3,700 jobs in food services/drinking places and a 1,700 job decline in accommodation; financial activities (up 1,700 jobs); and motor vehicle parts manufacturing (up 1,100 jobs). This was partially offset by declines in administrative/support/waste management (down 2,100 jobs), information (down 1,900 jobs), state government

educational services (down 1,100 jobs), and food/beverage stores (down 1,000 jobs). During November, nonfarm employment increased by 8,100 jobs. There were seasonal increases in retail trade (up 5,000 jobs), which includes increases of 3,000 jobs in general merchandise stores and 1,800 jobs in clothing/clothing accessories stores; food services/drinking places (up 1,400 jobs); and local government educational services (up 1,300 jobs). This was partially offset by a decline in construction (down 1,000 jobs).

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2004 benchmark.

Total nonfarm employment increased by 1,000 jobs from October to November. There were seasonal increases in retail trade (up 800 jobs), which includes an increase of 500 jobs in general merchandise stores; and financial activities, professional/scientific/technical services, federal government, and local government (all up 200 jobs). This was partially offset by a decline in leisure/hospitality (down 300 jobs), which includes a decline of 200 jobs in accommodation/food services.

During the past 12 months, nonfarm employment increased by 2,400 jobs. During that time, goods-producing jobs declined by 400 while service-providing jobs increased by 2,800.

Nashville MSA — Cannon, Cheatham, Davidson, Dickson, Hickman, Macon, Robertson, Rutherford, Smith, Sumner, Trousdale, Williamson, Wilson

Total nonfarm employment increased by 3,400 jobs from October to November. There were seasonal increases in retail trade (up 2,600 jobs), which includes an increase of 1,000 jobs in general merchandise stores; professional/business services (up 700 jobs), which includes an increase of 500 jobs in professional/scientific/technical services; food services/drinking places (up 400 jobs); transportation/warehousing/utilities (up 300 jobs); and information and finance/insurance (both up 200 jobs). This was partially offset by decreases in arts/entertainment/recreation (down 400 jobs), natural resources/mining/construction (down 300 jobs), and wholesale trade, state government, and hospitals (all down 200 jobs).
